

Employee Benefits Committee

The primary purpose of the Employee Benefits Committee (EBC) is to annually review the Roosevelt University benefit program and make recommendations to the Vice President of Human Resources on adding, deleting, maintaining or changing plans and/or features of the plans.

Each committee member brings multiple attributes to the EBC that include employment classification, college/department, campus location, rank or grade, tenure status, length of service at RU and plan participation levels. This allows for review and discussion of the benefits program designed for regular employees from diverse points of view.

The 15 members of the 2008-09 Employee Benefits Committee are:

- Clara Gong, Human Resources Generalist – Committee Chair
